Lab 1 Github Classroom

1/16/2025

Unlimited Attempts Allowed

⌄ **Details**

This course will now use **GitHub Classroom** to manage and submit code assignments.

Step 1: Download Blitz Documentation

Blitz Files (https://wwu.instructure.com/courses/1764413/pages/blitz-files)

Step 2: Check Blitz Setup

Blitz Setup (https://wwu.instructure.com/courses/1764413/pages/blitz-setup)

Step 3: Join GitHub Classroom

1. **Access the Assignment Link**: **https://classroom.github.com/a/8KIkH1Dc** ↪
   (https://classroom.github.com/a/8KIkH1Dc)
2. **Accept the Assignment**:
   - Click on the assignment link and accept the assignment. Upon acceptance, GitHub Classroom will automatically create a private repository for you.
   - You do not need to manually create a repository—GitHub Classroom will handle this for you, including setting it up with the necessary starter files.

Step 4: Link Your GitHub ID

- To ensure that your submissions are properly attributed, **link your GitHub username with your name in GitHub Classroom**. This step is essential for tracking your submissions accurately throughout the course.

Step 5: Lab Work

- Once you've joined the Classroom and linked your GitHub ID, you're all set to start using your GitHub repository. Detailed instructions on completing Lab 1 are available in the GitHub repository README.md file.

Repository Link Submission

Remember to submit your GitHub repo link in this assignment.
